

Uniflex Case Study: Event-Driven, Speedy Turn-Around Times

In the past 18 months, we have added multiple North American facilities that can achieve fully custom printed packaging in a matter of DAYS instead of weeks!

A large, national brand client was hosting a store-opening event in Southern California and was very tight on time, but need give-away bags for a new product they were introducing at the store opening. They reached out to us, assuming they had limited printing options given the time frame. However, with our new facility located in Mexico, we were able to provide top-quality, printed canvas totes – produced AND delivered in a matter of 10 days, for a FRACTION of the cost of overseas facilities.

These promotional totes were such a hit at the store opening, this client has run multiple other projects through us and our Mexico facility, including other promotional packaging, as well as in-store point-of-sale totes for purchase!
